Sociedad Amigos de los Niños (SAN)

Sociedad Amigos de los Niños (SAN) was founded by Sister María Rosa Leggol on November 23, 1966. As the oldest non-for-profit organization in Honduras, SAN continues to provide social, health and educational programs to the most vulnerable of the Honduran population.

*SAN operates several education centers—Reyes Irene School for Girls, as well as Kindergarten, Primary, and Secondary schools—that provide comprehensive learning and vocation training for students.

*SAN operates homes for children in vulnerable situations—who've been orphaned, abandoned, or removed from their homes—and provides a safe and loving environment.

*SAN operates several healthcare facilities—hospitals and clinics—with the aim of providing healthcare to those without equal access, including Maternal and Child Medicine.

*SAN supports programs that contribute to the eradication of poverty in Honduras, through the formulation and execution of entrepreneurial projects that create an impact in the community.

*SAN engages in emergency relief and crisis response efforts to support the local communities that they serve in times of crisis.

*SAN centers their efforts in community care, providing support services to individuals and families to ensure that the community is thriving.
